PARTNERSHIP PROPOSAL (CHURCH WEBSITE REBUILD & SISTER-CHURCH SPONSORSHIP)

Partnership Website Build Proposal for Avivamiento Church INC

Prepared for Avivamiento Church INC (940 Pondella Rd, North Fort Myers, FL 33903, USA) | Request Reference: GD-261122-712D5C | Listing ID: #508-261-122

Church / Ministry	Avivamiento Church INC	**Track & Country**	`partnership` (United States)
Primary Contact	Pastor Jorge Frigerio & Valentina	**Set By & Date**	`auto_country_inference` (2026-11-23)
Track Reason	United States is a Partnership Track country; the church pays 508 Ministry for its website build and may optionally sponsor a sister church.		
Upgrade Status	**Not Started**	**Pre-Profile Access**	`https://508ministry.com/api/goods/offer/GD-261122-712D5C`
Staging URL	`Scheduled once discovery begins`		

1. Identical 6-Part Deliverable List

1. **Full Showroom Church Website Rebuild:** Fast, mobile-ready pages built from your real church story, leadership, service times, outreach photography, preaching media, and direct contact channels, with self-hosted typography and zero third-party ad trackers.
2. **Verified 4-Tab Partner Listing & Unified Repository:** Your church details, elders grid, live and recorded radio episodes, bilingual PDF guides, and outreach campaigns organized together in one verifiable 508 Ministry repository.
3. **Individual Self-Editable Public Profiles for Every Elder & Leader:** Every named pastor, elder, and ministry leader receives their own public profile page with portrait, role, bio, church broadcasts, documents, and personal share link.
4. **Safe Pre-Switch Archive Backup & Private Staging Preview:** Before anything changes on your existing domain, we archive every publicly published page of your old website safely outside any public web folder and publish a private staging URL for your primary elder to inspect first.
5. **Encrypted Single-Church Domain & Hosting Handoff:** Your domain switches only when your primary elder approves the staging site. Registrar delegate access or guided DNS details are submitted solely through an encrypted single-church form, never by emailing passwords.
6. **Earned Gold Compass Badge & Tracked Partner Hop Links:** When your church publishes 10 or more minutes of preaching on the 508 media network and records it in your media tab, your website footer unlocks the Gold Compass badge linked through your church's tracked hop links (20% to 25% share of digital product margin).

Partnership Track Pricing, Payment Path & Sister-Church Sponsor Option

Because Avivamiento Church INC serves in United States, your website build is on our **Partnership Track**. We tell the truth up front: we do not pretend a paid build is charity, and we never charge a church in an under-resourced nation that cannot pay. Your paid build receives the exact same deliverable list and helps keep Mission Track builds free for sister churches such as Revealed Gospel Ministries in Mzuzu, Malawi.

Current Pricing Status: `pricing pending owner approval` (this proposal refuses to display a final price while any config value is set to `DRAFT`).

Deliverable / Optional Service	Price / Status
Full Custom Church Website Rebuild & Migration (`website_build_price`)	**pricing pending owner approval**
Optional Monthly Care, Updates & Managed Hosting (`optional_monthly_maintenance`)	**pricing pending owner approval**
Optional Monthly Broadcast Episode Production (Audio/Video) (`optional_episode_production`)	**pricing pending owner approval**

Payment Path

Structured 508 Ministry / Start My Business Stripe checkout link or written invoice issued only after the Founding Minister approves final pricing and the church approves scope. **Nothing chargeable runs yet. No card capture, no live checkout, and no invoices are sent while any price value is DRAFT.**

Optional Sister-Church Sponsorship Choices

- **Fund a Sister Church Website Build:** Underwrite the complete website rebuild for a Mission Track church in Malawi or another under-resourced nation.
- **Sponsor a Sister Church's Hosting:** Cover reliable dedicated private studio infrastructure and off-site backups for a Mission Track partner church.
- **Fund a Slice of a Sister Church's Goods Ladder:** Commit a 10% pledge slice of physical Bibles, ministry garments, or outreach supplies for a verified Mission Track church request.

Real Mission Track proof: Revealed Gospel Ministries community outreach in Mzimba North, Malawi.

Served-church proof: RGM Malawi verified listing, rebuilt staging site, broadcast episode, and 5 elder profiles.

2. Safe Staging Path, Backups & Hosting Security

Four stages tracked per church: `Not Started` → `Staging Built` → `Elder Approved` → `Live`.

Hosting access safeguard: Never send a password in email or chat. Submit registrar delegate access or guided DNS details only through `https://508ministry.com/partner-churches/upgrade-offer/hosting-handoff/?ref=GD-261122-712D5C`. Access is encrypted at rest and restricted solely to your church.

Zero destruction guarantee: Existing public website archived outside any public web folder prior to any redirect.

3. Gold Compass Footer Badge & Partner Hop Links

Gold Compass (earned only): Appears on your upgraded website footer only after **10 minutes of preaching** is published on the 508 media network and recorded in your media tab. Before that, no badge or placeholder renders.

Tracked Partner Hop Links (20% digital margin share): Every Bible, book, comic, or guide link carries your church identifier (`508261122`). Configurable range: 20% to 25% (default 20%). 508 Ministry net product margin on digital goods (Bibles, books, guides, courses, and media). Never a payment for referrals or donated physical items.
